DETAILED ACTION

Claim 16 is directed to an allowable product. Pursuant to the procedures set forth in the Official Gazette notice dated March 26, 1996 (1184 O.G. 86). Claim 16 is hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Since all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement made in the Office action mailed on 9/6/05 is hereby withdrawn.

Claim Objections

Claims 4-6 and 10-14 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from another multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims 4-6 and 10-14 have not been further treated on the merits.

Allowable Subject Matter

Claims 1-3, 7-9, 15 and 16 are allowed.

The following is an examiner's statement of reasons for allowance: at a minimum the prior art does not show nor fairly suggest grooves in the tines of a tuning fork in which the width of the base portion side of openings of the groove portions of the resonator piece is formed narrower than the width of other portions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art cited reads on some aspects of the claimed invention.

This application is in condition for allowance except for the following formal matters:

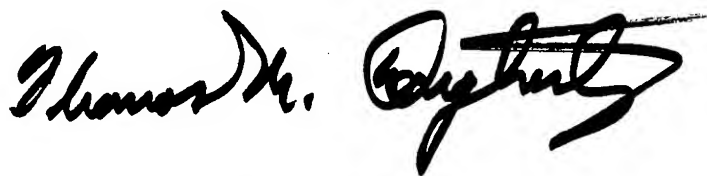

Correction of the multiple dependency is required for the case to issue.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
